RE: Request for DepEd Advisory for School Year 2016-2017

Dear DR. FORNIEZ,

A Perfectly Clear Sky to you!

The extreme consequence of catastrophes brought by severe changes in our climate system had brought the entire humanity countless sufferings including loss of lives and damage to properties. Such aftermath affects not just one particular area but the entire geographical zone worldwide.

In the Philippines, the devastating effects of super typhoons such as "Yolanda," the extensive drought brought about by "El Niño" coupled with heavy rainfall due to "La Niña" and high intensity earthquakes have challenged the lives of many Filipino people leaving countless casualties. Climate System change which dramatically increases the effects of natural calamities such as these are offshoots of atmospheric movements.

Amidst these challenging threats caused by Climate Change, The Jhanyro Events Management Services (JEMS) proposes a suitable and effective educational activity aimed at promoting awareness on Environment & Climate Change and Astronomy & Space through the aid of modern and interesting teaching methodologies. This can be a valuable addition to other aspects of the teaching/learning process which could help the students synthesize formerly disparate pieces of information into a more holistic understanding.

JEMS is proud to introduce our Comprehensive Astronomical and Environmental Awareness Program which includes the following activities:

- Activity 1 **Digital Mobile Planetarium**
- Activity 2 **3D Film Viewing**
- Activity 3 **The Gallery**
 Interactive Exhibit

In line with this we will be conducting a school caravan nationwide. With your valuable support, we can achieve our goal in raising nationwide awareness and appreciation of the Environment and Astronomy through JEMS.

DepEd Advisory No. 170, s. 2016

For more information, please do not hesitate to contact us at 0917-837-5252 / 0919- 991- 4277 or may also email us at jhanessflores@gmail.com

We look forward to your favorable response.

With highest esteem:

Jhaness P. Flores

ABOUT US

A seeming exclamation, Jhanyro Events Management Services, otherwise known as JEMS, proudly announces that we have found a way to bridge the gap between Environmental Space Science and Education through a comprehensive program that aims to promote total awareness and consciousness on the topic of Astronomy, Climate Change, Global Warming and other aspects of Science. Therefore, in an effort to introduce the fundamental information as well as breakthroughs on these subjects, JEMS proposes a fun and exciting presentation through the aid of modern technologies and methodologies. JEM'S utmost desire is to spread the passion of scientific learning of the participants and elevate their level of knowledge on these topics through these proposed means. It is one brilliant way to support the youth in their continuous search for answer and curiosity. The program aims to awaken and mold the bright minds of the participants towards becoming future Filipino Astronomers, Environmentalists and Climate Change Advocate.

OBJECTIVES

To provide educational entertainment which will help maximize learning potential. To provide useful information to students and the public and make them awaken the effects of Climate Change. To inculcate the values of sustainability and management of natural resources.

OUR PROGRAM

Being the pioneer in integrating the broad topics of Environmental and Astronomical Knowledge, JEMS offer a wide range of interesting and highly educational shows, exhibits and other presentations where learning efficiency can reach its optimum level.

CLIMATE CHANGE

One of the most pressing development issues today in our world is the serious threat of Global Warming caused by numerous factors. JEMS intends to educate the participants on fundamental concepts of Climate Change and its impact on our environment in the most entertaining way. The Film features the effects of Climate Change in Water, Land, Forest, And in Polar Region.

360° DOME THEATRE

Be amazed by one of the most effective teaching approach on Science Education in today's modern times using a large 360 degrees (360°) format theater projection with digital surround sound that highlights an array of countless celestial objects. With this latest system, the participants can experience the stunning infinite beauty of the universe through its real time space simulation and celestial navigation. To make it even more exciting, our highly-trained lecturers will conduct live, interactive discussions and presentations in a fun and enjoyable way. The 360° dome environment provides the audience with a memorable learning experience in the field of Space Science Education.

JHANYRO EVENTS MANAGEMENT SERVICES

This display showcases variety of art exhibits and other amazing works of art that deals with Biological Diversity, Flora & Fauna Species, Astronomical Facts and Breakthroughs, Optical Illusions, Proper Solid Waste Management (in consonance with the Ecological Solid Waste Management Act No. 9003 series of 2000), the Power of 3R's (Reuse, Reduce & Recycle) and the Life Span of Common Garbage and Wastes. The exhibit includes detailed information on the itemized topics.

Participants will be in total action as they can effectively aid in the proper understanding of certain subjects including body conduction, radio meter and tectonic and /or volcanic movements of the Earth's surface. With the help of our highly energetic and well-trained lecturers, participants discover the principles and ideas behind the mechanisms of every interactive gadget. Furthermore, the enticing cool devices will make them proactive with the lecturers while skillfully managing each gadget.

Today is the perfect time for us to discuss these bright ideas. The pupils, students, teachers and school administrators from both public and private schools are invited to watch the show.

Participation of both public and private schools shall be subject to the no-disruption-of-classes policy as stipulated in DepEd Order No.9, s.2005 entitled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith.

Let us explore the JEMS Learning Experience.

**COMPREHENSIVE ASTRONOMICAL AND ENVIRONMENTAL AWARENESS
PROGRAMS OF THE JHANYRO EVENTS MANAGEMENT SERVICES**

The Jhanyro Events Management Services (JEMS) introduces its *Comprehensive Astronomical Awareness Program* for the School Year 2016-2017 which includes the following:

1. Activity 1 - Digital Mobile Planetarium;
2. Activity 2 - 3D Film Viewing;
3. Activity 3 - The Gallery; and
4. Activity 4 - Interactive Exhibit.

The Programs aim to awaken and mold the participants' bright minds towards becoming future Filipino astronomers, environmentalists and climate change advocate. Specifically, its objectives are to:

1. provide the participants with educational entertainment which will help maximize learning potential;
2. provide them with useful information and make them awaken the effects of climate change; and
3. inculcate in them the values of sustainability and management of natural resources.

The learners, teachers and school administrators from both public and private elementary and secondary schools are invited to watch the events/programs.

Participation of both public and private schools shall be subject to the *no-disruption-of-classes policy* stipulated in DepEd Order No. 9, s. 2005 entitled *Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*.
