SpEd Regional Coordinator
DepEd Region X

Respected Atty. Chatto:

Greetings of peace and health!

"HE IS SLOW", "HE CAN'T MEMORIZE THE ALPHABET", "THIS IS AS FAR AS HE GOES"-phrases that we often hear people say to children who were not able to reach their goals in school or to students who doesn't "EXCEL" in class. Are they really slow and helpless or they were not given enough attention, understanding and opportunity to learn? They may not seem to know many things but they can be successful in their own pace, in their own way. Understanding the condition of the child, gives us the greater understanding on how to deal with them and help them in the best way possible.

The Philippine Mental Health Association Cagayan de Oro-Misamis Oriental Chapter gives emphasis on this matter in connection to the whole well-being and development of every Filipino Youth. We strongly believe that each child has the ability to do great things, be given equal opportunity to learn and to achieve success regardless of their disability. We acknowledge the truth that all children have a unique style of learning and it requires a unique style of teaching and guiding as well. We are positive that every child can be successful in the classroom if their needs are properly met. This involves great skills from the people surrounding them, the teachers, the guidance counselors, school personnel, the family and even the community.

In line with this advocacy, we invite your dedicated teachers to a seminar-workshop entitled, "**LD ALERT: UNDERSTANDING THE DISABILITY, UNDERSTANDING THE CHILD MORE**". The goal of the lecture is to raise awareness and develop skills in identifying and dealing with students who have difficulties in learning in a classroom setting. This lecture will focus on what **they can do** and what **we can do** for them.
