RELEASED

9TH NICP ICT SUMMIT

The Department of Information and Communications Technology (DICT) and the National ICT Confederation of the Philippines (NICP) will hold its annual event – the digitalcitiesPH National Launch and 9th NICP ICT Summit on November 16-17, 2017 at The Atrium and Rosario Pavillion, Limketkai Mall, Cagayan de Oro City.

The Summit aims to:

1. keep up with the current trends in the global ICT industry;
2. prepare for and embrace the countryside digital opportunities;
3. enable a sustainable ecosystem for tech industry and innovation to flourish; and
4. link people in countryside to global ICT companies for career opportunities.

Participation of both public and private schools is on OFFICIAL TIME only and shall be subject to the *no-disruption-of-classes policy* stipulated in DepEd Order No. 9, s. 2005 entitled *Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith*.

Enclosed is the communication from Stephanie P. Caragos, President, National ICT Confederation of the Philippines, for your ready reference.

RECEIVED

Dear Dir. Farnazo,

The Department of Information and Communications Technology (DICT) and the National ICT Confederation of the Philippines (NICP), the umbrella organization of more than sixty-five (65) ICT Councils from all over the Philippines, will hold its annual event – the digitalcitiesPH National Launch and 9th NICP ICT Summit on **November 16-17, 2017** at the **The Atrium and Rosario Pavillion, Linketkai Mall, Cagayan de Oro City** with the theme **"CDO" – Countryside Digital Opportunities Exchange**". The **Cagayan de Oro ICT Business Council** is privileged to locally organize all segments of this national summit.

The Summit proper, one of its flagship brand events, brings together champions of the Information and Communications Technology (ICT) stakeholders and experts from public and private stakeholders to share industry trends, developments, best practices, and identify challenges/ways to generate new investments and create jobs for cities outside of Metro Manila. We are expecting about more than 700 delegates will be participating in the sessions.

This year, the Summit intends to improve the capacity of cities and municipalities to: **1) keep up with the current trends in the global ICT industry, 2) prepare for and embrace the countryside digital opportunities, 3) enable a sustainable ecosystem for tech industry and innovation to flourish, and 4) link people in countryside to global ICT companies for career opportunities.** Supporters include the Department of Trade and Industry (DTI), the Cagayan de Oro Chamber of Commerce and Industry (OROCHAMBER), the Cagayan de Oro ICT Business Council and the local government of the city of Cagayan de Oro.

The second part of the Summit is the **6th eGov Awards**, or Awards for Excellence in ICT for Good Governance for Local Government Units, is an annual search for the best practices in local government units in utilizing information and communications technology (ICT) to effectively and efficiently deliver its public services directly to its constituents and other stakeholders, with the full support of the Department of Interior and Local Government (DILG). About more than 200 participants will be joining this segment, mostly coming from the LGUs all over the country.
