Dear Sir:

Our institution intends to engage in the computer development program for the students in the primary and secondary level within your region. In doing this, we respectfully request your conformity for us to introduce our program and to give questionnaires to be answered by students to your school, which will not last for more than fifteen (15) minutes.

After then, should the parents signify their intension to enroll their child/children in our computer program, we will train the students for a very minimal and affordable fees on a weekly basis, through our computer partner schools, such as but not limited to Bethel Baptist Christian Academy. This is purely voluntary on the part of the parents of the students.

After they finished the whole program for fourteen (14) weeks, Bethel Baptist Christian Academy will issue a certification of completion, which maybe used by them for employment, if they want.

By doing these, your students ability in the field of computer science and technology will be more enhanced and nurtured. This computer development training will surely be used as their tool in any endeavor in the future, either in the employment or business industry.

Hoping for your kind consideration and approval.

Very truly yours,

RUSSELL RITCHIE ONG
RCTP President
