REGIONAL MEMORANDUM

No. 85, s. 2019

FEB 12 2020

RELEASED

**SECOND ROUND OF 'SABAYANG PATAK
 KONTRA POLIO. LAHAT KASAMA'**

To: **Schools Division Superintendents**
All Others Concerned
This Region

1. The Department of Health Center for Health Development-Northern Mindanao CHD will be conducting second round of "Sabayang Patak Kontra Polio. Lahat Kasama" for the whole of Mindanao on **February 17-March 1 and March 23-April 4.**
2. The target participants for the Synchronized Polio Vaccination (SPV) in schools are pupils under five years old.
3. This is in response to the re-emergence of polio with the presence of positive samples during surveillance. Hence, immediate action must be taken with the single most effective intervention of providing supplemental vaccination in priority areas. Target population should reach 100-percent vaccination coverage to protect everyone and halt transmission.
4. Hence, this Office directs all Schools Division Offices (SDOs) and all private schools in the divisions to intensify the campaign efforts in the entire region and to ensure the full cooperation of all pre-school children for the vaccination.
5. All queries about the activity may be coordinated locally with Ms. Karen Y. Garces of DOH-CHD at 09177102127 or email at epi_rox_doh@gmail.com or at Central Office with Ms. Loida B. Ramos of the Bureau of Learners Support Services (BLSS) at (02) 8632-9935 or email at luida_ramos12@yahoo.com.
6. Immediate and wide dissemination of this Memorandum is desired.

DR. ARTURO B. BAYOCOT, CESO V
Regional Director
Department of Education Regional Office X
Masterson Avenue, Zone 1
Upper Balulang, Cagayan de Oro City

Dear Director Bayocot,

Greetings!

In response to declaration of polio epidemic in the Philippines by the Office of the Secretary of Health, the whole country has conducted two (2) rounds of Polio Outbreak Response Immunization (PORI) last November 25 to December 7, 2019 and January 17 to February 2, 2020 for the Type 2 re-emergence.

On November 26, 2019, the Department of Health announced poliovirus type 1 re-emergence in Basilan following the finding of a case in the municipality of Maluso. This case has genetic links to the poliovirus detected in Sabah, Malaysia on December 6, 2019. Another case was also found positive of the same type in Lambayong, Sultan Kudarat on December 9, 2019.

In line with this, the Department of Health Center for Health Development-Northern Mindanao in collaboration with all Local Government Units will conduct another (2) two rounds of polio outbreak response immunization, a critical action to guarantee high population immunity among under 5-year-old children and protect the population from the consequences of Type 1 polio virus recirculation.

The activity will be synchronized across all targeted areas and should be completed in two weeks based on the schedules provided below:

Round	Date	Vaccine to Use	Target Age Group
3	February 17 – March 1, 2020	bivalent Oral Polio Vaccine (bOPV)	0-59 months old (<5 years old)
4	March 23 – April 4, 2020	bivalent Oral Polio Vaccine (bOPV)	0-59 months old (<5 years old)

Relative to this, we request for the issuance of a memorandum to private schools and public schools to ensure their cooperation with the vaccination teams for the Polio Immunization of their pre-school children.

Let us be one in this battle cry, "Sabayang Patak Kontra Polio. Lahat Kasama." to achieve 100% vaccination coverage.

Thank you and more power.

Very truly yours,

DR. ADRIANO P. SUBA-AN, CESO IV
OIC-Director IV
