REGIONAL MEMORANDUM

No. 231, s. 2021

**IMPLEMENTATION OF PROJECT INNOVATIVE
ONLINE SYSTEMS (Project IOSs)**

To: Schools Division Superintendents
All Others Concerned

1. The Department of Education (DepEd) Region X developed an innovation that affords a more systematic, accurate, and efficient online processing, access, and/or storage of electronic files for effective and efficient delivery of educational services. These innovation online systems are the **Curriculum Management Support System (CMSS)** and **Inventory of Management System (IMS)**.

2. The Curriculum Management Support System (CMSS), a DepEd RO-X innovation, is online monitoring of the learners' performance per quarter for all the learning areas from Kindergarten to Senior High School. CMSS was implemented SY 2019-2020, but it underwent a revision for this School Year 2020-2021 due to DepEd Order No. 31, s. 2020 on the Interim Policy Guidelines for Assessment and Grading in light of the Basic Education Learning Continuity Plan, particularly for schools to adopt assessment and grading practices that can most meaningfully support student development and respond to varied contexts at this time.

3. On the other hand, the Inventory Management System (IMS) is a systematic online inventory of educational resources of the schools for efficient and effective delivery of services toward overall customer satisfaction. IMS innovation was created to capture deliveries of Science and Mathematics Equipment (SME), DepEd Computerization Program (DCP Packages), TVL Tools and Equipment, and Textbooks/Learners' Materials from the Bureau of Learning Packages and the locally developed self-learning modules.

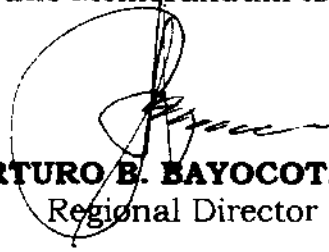

4. All these online systems (CMSS & IMS) implemented in the Region were developed by the ICT personnel of the Region. Thus, no amount was involved in the programming of the two systems.

5. The SDOs are enjoined to update immediately the receipt/acceptance of these online resources.
6. Immediate and wide dissemination of this Memorandum is desired.
