Dear Dr. Gazo,

Greetings!

We would like to ask your support for the study on rehabilitation and reintegration services available for child victims of online sexual abuse and exploitation. The study is being undertaken by UNICEF Philippines in partnership with the Department of Social Welfare and Development. Data for the study is being collected through a literature review, key informant interviews, service mapping and a national online survey.

We would appreciate your taking the time to answer and complete this survey and sincerely hope the study findings will be beneficial for your efforts to ensure the protection of children. This survey is open to all stakeholders involved in protecting children from online sexual abuse and exploitation, including government authorities at different levels, social workers, NGO staff, teachers, police, hospital staff and others (see attachment for full list).

The survey can be completed in English, Tagalog or Cebuano (links below) and will take approximately 20 minutes to complete. The survey can be submitted anonymously, if requested.

Please share the survey links with all staff and stakeholders that have any information or views to share on service provision for child survivors of online exploitation. This information and the survey links can also be shared on Facebook and other social media pages.
