DEPED DIVISION OF MALAYBALAY CITY
Malaybalay City

Subject: *SustainabiliTEE Convention Partnership*

Dear Ma'am/Sir,

Greetings of peace!

Treebuk Project, a Bukidnon-based youth-led environmental organization, continues its advocacy to raise awareness about current climate issues and encourage people to take action. Raising awareness of sustainable energy consumption is one of the organization's goals. In Bukidnon, there are frequent rotating brownouts and power outages. Despite the inconvenience, people are still required to pay high fees, which is a concern for some residents. As a result, Treebuk Project will host the SustainabiliTEE Convention in collaboration with OurEnergy 2030. The convention's goal is to educate people about environmental issues and provide environmentally friendly solutions. It also highlights various technology, energy, and environmental projects, ideas, and innovations.

With this, our organization warmly invites you to be our partner in spreading environmental consciousness through this event. We believe that our collaboration in this event will reach the grassroots by educating them on sustainable power consumption in Bukidnon and the Philippines. SustainabiliTEE Convention will be held at Kaamulan Theater **on April 30, 2022, at 10:00 AM**. Attached to this message are the primer and partnership packages your organization can choose from, should you accept this invitation. For inquiries or further information, you may email us at treebukproject@gmail.com, message us through our Facebook Page Treebuk Project, or contact Ms. Jan Pauleen Ongkiatco-Corpuz through messenger.

We are looking forward to your positive response to this invitation on or before April 25, 2022.

Thank you and God bless.

Truly yours,

ROREI MAHELLE V. ASINERO
Treebuk Project President/ Founder

ABOUT US

TreeBuk Project is a volunteer-powered organization derived from the words Tree and Bukidnon. It aims to plant more trees in the said province, spread awareness on the current climate issues, and encourage the youth to take action.

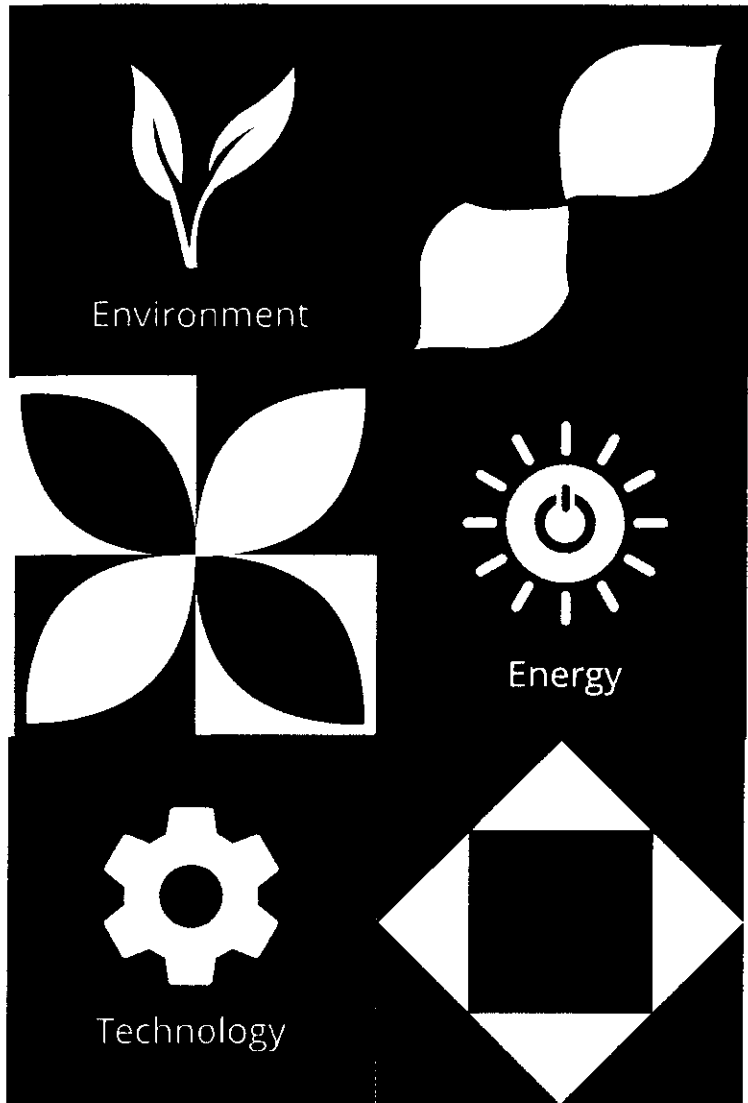

ABOUT THE EVENT

In partnership with OurEnergy 2030, ***SustainabiliTEE Convention*** is a gathering of people of different ages who are willing to learn about just and sustainable energy consumption and how it can help mitigate the effects of climate change. It aims to educate people about the whys and hows and offer environment-friendly solutions. It also strives to showcase different projects, ideas, and innovations related to technology, energy and environment.
