Fundamentals of Statistical Analysis using Spreadsheet, JAMOVI and JASP – October 19 to 21, 2022 via ZOOM

Did you know that you can run basic to complex data analysis and publish research paper using FREEWARES and OPENSOURCE (softwares)? Agencies do not need to invest on expensive softwares just to run basic statistical analyses. Allow us, STRATONE, educate you in using and exploiting these softwares.

Objectives:

1. Identify the right statistical test that will explain a problem.

DTS: 22-83400.

2. Exploit the freewares:

- How will these freewares benefit our organization?
- Can we really publish research papers without paying or purchasing any statistical software? Are you really sure that we can publish paper using JASP, JAMOVI and Spreadsheet?
- "Baka naman basic statistics lang kaya niyan? Allow us to show you the complex statistical test that JAMOVI, JASP and Spreadsheet can do.

3. Learn how to report statistical results.

This workshop is designed for professionals who are looking for a drag and drop interface (software), and software that does not require a programming background.

Hence, we are inviting you to join our upcoming virtual workshop on **Fundamentals of Statistical Analysis using Spreadsheet, JAMOVI and JASP – October 19 to 21, 2022 (P3,100.00) via ZOOM. A total of 22.26 training hours.**
