Building Capacities of Civil Society Organizations, Local Government Units, and Government Line Agencies in Mindanao to Address Child Labor through Promotion of Acceptable Conditions of Work in Crop Agriculture

The project will focus on the EU priorities, including supporting a community-based approach to combatting child labor in hazardous industries, particularly in the agricultural sector. It will strengthen the capacities of CSOs in undertaking policy advocacy work with LGUs and LAs to advance children's rights, increase stakeholder's participation in ending child labor in all its forms, and promote multi-agency collaboration and cooperation on child labor issue. The project timeline will be February 1, 2023, to January 31, 2025.

Intervention Logic

Impact: Capacitated civil society, local government, and line agencies contribute to the efforts in eliminating child labor in crop agriculture in Mindanao, the Philippines

Outcome: Civil Society Organizations (CSOs), Local Government Units (LGUs), and Line Agencies (LA) effect existing laws, create ordinances, formulate policies and activate referral and reporting mechanisms to eliminate and prevent child labor in hazardous form, and promote acceptable conditions of work in crop agriculture in three provinces of Mindanao (Bukidnon, North Cotabato, and Davao del Norte).

Output: Strengthened capacities of CSOs, LGUs, and LAs to affect the active implementation of policies, programs, and systems to eliminate and prevent child labor in the hazardous form in crop agriculture in the selected provinces.

Implementing Organization

ChildFund Philippines Inc is an international NGO that works toward a world where children are free to realize their rights and potential. Our approach on the issue is to connect children with what they need to grow up healthy, educated, skilled, and safe.

HaUman Association Inc. was established in 1988 and operated in Midsayap, Aleosan, and Region 12, covering 29 Barangays. Its programming focuses on child protection and social inclusion of families and communities who experience cultural marginalization and conflict.

Kaanib Foundation was established in 1981 and formed by five farmer cooperators, and since then has been catering to farmers' groups in corn, rice, and coffee in farming communities in Bukidnon. They provide technical assistance on research, farm/production, market, and post-harvest facilities.
